

# ENROLL US

## We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

### IDENTIFYING INFORMATION

Name of Organization: Steelscape, Inc.  
Principal Contact: Mike Nelson  
Authorizing Official: \_\_\_\_\_  
Address: 11200 Arrow Route  
Phone/Fax: (360) 673-8207 / (360) 673-8689  
EPA RCRA ID Number: CAD060762432

Facility Name: Steelscape, Inc. Rancho Cucamonga  
Title: EHS Manager  
Title: \_\_\_\_\_  
City/State/Zip: Rancho Cucamonga, CA 91730  
Email: michael.nelson@steelscape.com  
Date: 1/29/07

### PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Naphthalene **CASRN:** 91-20-3

**Narrative description of proposed project:** \_\_\_\_\_

Steelscape applies organic coatings to metal using roll coaters. The organic coatings contain naphthalene-bearing solvents. In addition, reducing solvents containing naphthalene are added to the organic coatings for viscosity purposes. We will modify line equipment to contain a 3 head coater system along with the addition of heat exchangers to control paint temperature. We will also evaluate using Aromatic 100 rather than Aromatic 150 and will work with vendors to replace naphthalene with a less hazardous chemical.

**How we will measure success:** \_\_\_\_\_

All hazardous materials are entered into a database from MSDSs by percent by weight. We will measure success by the reduction in pounds used.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 57,794 pounds in March, 2007 (month/year) to a reduced amount of 40,455 pounds generated/used by March, 2010 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> Equipment or technology modifications. | <input type="checkbox"/> Process or procedure modifications.                  |
| <input checked="" type="checkbox"/> Reformulation or redesign of products. | <input checked="" type="checkbox"/> Substitution of less toxic raw materials. |
| <input type="checkbox"/> Improvements in inventory control.                | <input type="checkbox"/> Improvements in maintenance/housekeeping practices.  |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- |  |
|--|
| <input type="checkbox"/> Direct use/reuse in a process to make a product.                |
| <input type="checkbox"/> Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> Using/reusing waste as a substitute for a commercial product.   |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). ☒ Yes ☐ No

**Please use supplemental sheets for additional goals.**
